DETAILED ACTION

Acknowledgements

This office action is in response to Applicant's communication filed on Jan. 23, 2004. Claims 1-2 are pending in the application

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Macrae, US Patent Application No. 2003/0093310. Macrae discloses a strategic business method for financial institutions, comprising:

establishing a strategic metric;

setting measurable goals using the established strategic metric;

communicating the goals effectively; and

measuring and reporting progress in reaching the goals ([0025]-[0029]; [0032]-[0038]; [0072]; Examiner notes that communicating the goals effectively is inherent to Macrae).

Claim 2 is the corresponding apparatus claim to implement the method claim 1 and hence rejected on similar ground.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure are US Patent Application No. 2004/0015375 and 2003/0088493.
